

Summer Opportunity for High School students

Re: Pipeline Prep-Professional Scholar's Program Grades 9-12th

Over the past years Greensboro AHEC have offered a summer experience for pipeline students that has focused on engaging students in rigorous academic courses, and exposure to genetic research, hands-on that give students a competitive edge when entering college. Our funding has changed and we have a limited amount of funds that can be used for pipeline students. In that vein, we wanted to introduce a Pre-professional Scholar's program opportunity for pipeline students in our region.

We are hosting a two-day Pre-Professional Scholars program for pipeline students rising 10-12 grade students who are seriously interested in pursuing a Health Career. The two-day program will take place at Union Square, 104 E. Gate City Blvd, Greensboro, NC June 28th 9:00a.m- 3:00p.m. and June 29th 9:00-1:00p.m. We will have activities and fun that will be sure to engage students and connect students with a health career. We have several workshops planned such as Health Careers 101, ACT Prep, What is your Brand, visit to Simulation labs and more.

Lunch provided. Students must commit to both days.

If you are interested in attending: **PLEASE COMPLETE STUDENT REGISTRATION FORM**

Deadline: June 19th or until all slots are filled.
