

**For preceptors of medical, pharmacy, and nursing students in the Greensboro area**

## Greensboro AHEC Partners to Promote Precision Health Research Initiative

The [All of Us Research Program](#) is an ambitious national effort from the National Institutes of Health to gather data from one million or more people living in the United States to accelerate research. The program is open to people of all health statuses from all communities.

**As a community engagement partner, Greensboro AHEC**

invites people in North Carolina to learn more and witness the developing long-term outcomes of new possibilities with *All of Us*.

We can assist interested parties with opportunities to enroll as individuals or to partner in participation as community organizations, health care providers, or researchers in this effort to advance health care equity in precision medicine.

**The future of health begins with you:**

## Preceptor and Student Opportunities

**Health Careers & Workforce Diversity, Equity, and Inclusion** at Greensboro AHEC is currently recruiting students who are interested in Health Careers programs in our region. Our [AHEC Scholars Program](#) is now accepting students for Cohort 4. Additionally, we are registering college students for our [Pre-professional Scholars Summer Experience \(PPSSE\)](#). This program is designed for rising college freshman and sophomores, no matter what school they choose to attend. These programs prepare students for health careers, college classes, advising, professionalism, networking, and so much more. Please visit the [Health Careers](#) page on our website, [gahec.org](http://gahec.org), to find out more about our programs and to register.

We need your help in providing meaningful clinical experiences for our Scholars. For more information, or if you are interested in being a preceptor, visit [www.gahec.org](http://www.gahec.org) or contact Patricia Parrish at [patricia.parrish@conehealth.com](mailto:patricia.parrish@conehealth.com).

## Essential Evidence Plus Decision-Making Tool Now Offered to Health Professionals

*Get evidence-based answers to clinical questions*

**Essential Evidence Plus** is a clinical decision-making tool that provides point-of-care information for physicians, nurses, and other healthcare professionals.

**Essential Evidence Topics:** More than 800 diseases and conditions are

comprehensively reviewed, providing a “bottom-line” summary, an array of helpful algorithms, and recommendations with a strength-of-evidence rating based on the evidence available in the relevant literature.

**To access — Log in to the [NC AHEC Digital Library](#) and click on the *Essential Evidence Plus* link.**

For questions or for access to the NC AHEC Digital Library, contact the Cone Health Medical Library at [medical.library@conehealth.com](mailto:medical.library@conehealth.com).

## Interested in Precepting?

Teaching students is an enjoyable way to give back to the community and ensure that future health providers have the best training possible.

If you would like to learn more about becoming a preceptor, contact Tonya Baldwin at [tonya.baldwin@conehealth.com](mailto:tonya.baldwin@conehealth.com).
